

**Direct Install** is a turnkey solution that makes it easy and affordable to upgrade to high efficiency equipment. **Willdan**, which has been selected by JCP&L to implement the program, will provide you with a NO COST energy assessment to identify eligible equipment replacements, help you complete the application/agreement, then replace the equipment in a convenient and timely way.

The **program pays up to 80%** of eligible retrofit costs, dramatically improving your payback on the project. Plus, you'll continue to save energy and money for years to come.

## Program Benefits

**Turnkey process** — Willdan or one of its partner contractors will address your project from start to finish, beginning with an assessment of your facility, and ending with the installation of eligible energy-efficient equipment.

**Minimal cost** — The program pays up to 80% of the cost of qualified measures, which means your upgrade project can very quickly pay for itself.

**Fast turn-around** — Project installations are typically completed within 90 days from the time of scheduling your energy assessment.

**Ongoing savings** — Your new energy-efficient equipment will provide savings for years to come through reduced energy costs on your monthly utility bills.

**Financing** — Qualifying Customers may be eligible for 0% financing up to a 5 Yr. term.

## Customer Eligibility

- Existing small commercial facilities with a billed electric demand of 300 kilowatts (kW) or less.
- Buildings must be located in JCP&L electric service territory in New Jersey.
