

DIRECT INSTALL PROGRAM

MAXIMIZE YOUR FACILITY'S ENERGY PERFORMANCE WITH THE DIRECT INSTALL PROGRAM

The Direct Install (DI) Program makes upgrading your business with energy-saving equipment easy and affordable. You can save on monthly energy costs with available energy-efficient lighting, HVAC, and refrigeration upgrades. Best of all, the program offers upgrades at **no out-of-pocket cost** to you by providing significant incentives and **0% financing** for up to 5 years.

Upgrading to energy-saving options can cut your costs — not to mention it's environmentally responsible, too!

DIRECT INSTALL AVAILABLE UPGRADES

Choose from a range of solutions:

Heating and Cooling. Keep your equipment running efficiently while increasing your profitability. Save money for years to come, get a high-efficiency unit with incentives to offset the cost.

Refrigeration. Quality refrigeration is crucial to keep goods cool and fresh. Upgrading reduces your operating expenses, increases profitability, and keeps your coolers and freezers running efficiently.

Lighting. Your business's lighting can affect mood, productivity – and your bottom line. We provide retrofit and replacement options so you can choose the upgrades that work best for your space and your budget.

HERE'S HOW IT WORKS

The DI Program provides business customers with a “turnkey” solution that makes it easy and affordable to upgrade to high-efficiency equipment.

1

Assess

Receive a no-cost energy assessment.

2

Install

Install energy savings upgrades at **no out-of-pocket cost** to you.

3

Save

Enjoy monthly energy savings and **0% financing** for up to 5 years.

Direct Install Program Benefits

With JCP&L's Direct Install Program you can reduce your energy and maintenance costs, enhance your business' appearance, increase safety for occupants and workers, and improve the air quality.

Customer Eligibility

The Direct Install Program is available to commercial accounts with an average annual demand of 300 KW or less. Contact us today to confirm eligibility.
